

Company Profile

ELECTRIX

Electrix is a full-service electrical contractor. Our company was formed to address an expressed need by customers and contractors to provide cost-effective, technically qualified and highly skilled electrical services delivered in a flexible, safe and adaptive format.

Our combined experience encompasses every facet of design build, heavy industrial, telecommunications, commercial, healthcare, alternative energy and advanced technology electrical applications. We pride ourselves on our work quality and the ability to successfully manage complex and technically challenging projects with operational excellence, within budget and ahead of schedule.

The Electrix Service Division was established to support our customers through any service or maintenance work they may require. Our service vehicles come to your facility completely prepared with materials, tools and some of the best trained technicians in the industry.

Electrix enjoys a strong relationship with West Coast Bank (Banking), Hoffman, Stewart & Schmidt (Accounting) and Biggs Insurance (Bonding & Insurance). Electrix' experience and collaborative approach has resulted in several tangible performance indicators, including a **2007 EMR of 0.64**. Electrix was awarded Intel's coveted Supplier Safety and Leadership in Excellence Award in 2003 and 2004, and was nominated in 2005.

Electrix' goal is to assemble a group of the most sought after management and field supervisory talent. Our people know the work, price the work and manage the installation and crews directly. We are dedicated to the belief that exceptional performance will place us at the front of the pack when evaluated by our customers.
